

Peter Llewelyn Evans
Maxillofacial Laboratory Services Manager & Reconstructive Scientist,
Maxillofacial Unit, Morriston Hospital, Swansea, Wales, UK

Peter is well renowned in the field of Maxillofacial Prosthetics, being part of a team that pioneered the use of Craniofacial Implants in the UK for retention of Maxillofacial Prosthetics. Studying Maxillofacial Prosthetics in London in 1987 he moved to Wales to join the Welsh Craniofacial Implant Team.

He is presently Head of Prosthetic Maxillofacial Rehabilitation at Morriston Hospital, Swansea. His main areas of interest include facial prosthetics for children, craniofacial implantology and 3D modelling and imaging. He has published extensively in on the integration of digital technologies into facial prosthetics and implants.

Peter is a full member of the IMPT and a founder member and secretary of CARTIS.
